SUMMARY

Junior Front-End Developer with hands-on experience building responsive, user-focused web applications using React, Next.js, TypeScript, JavaScript, and Tailwind CSS. Developed a production AI skin-analysis interface at Skinstric AI, integrating API-driven results, reusable components, responsive layouts, and interactive UI. Experienced with Firebase, Firestore, REST APIs, authentication, Redux Toolkit, and automated frontend testing with Jest and React Testing Library. Strong focus on responsive UI/UX, accessibility, performance, clean code, and maintainable component architecture.

TECHNICAL SKILLS

Languages & Web: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frameworks & Libraries: React, Next.js, Tailwind CSS, Framer Motion, Redux Toolkit
Testing: Jest, React Testing Library
Backend & APIs: Firebase, Firestore, REST APIs, Axios, Secure POST Requests
UI/UX: Responsive Design, Mobile-First Development, User Flows, Accessibility, Figma
Tools & Platforms: Git, GitHub, Vercel, Netlify, VS Code, npm

EXPERIENCE

Skinstric AI — Remote

Frontend Engineer | Jun 2025 – Jul 2025

- Built a responsive AI-powered skin-analysis web application using React, Tailwind CSS, and Framer Motion across desktop and mobile devices.
- Developed interactive UI components and dynamic forms for AI-driven demographic predictions and real-time results.
- Implemented client-side data handling and secure POST API communication while maintaining reusable, scalable component architecture.
- Translated product requirements into responsive user interfaces with attention to usability, visual consistency, and performance.

Amazon — Buena Park, CA

IT Support Associate | Dec 2023 – Feb 2024

- Completed 450+ hours of technical support, resolving approximately 20–30 support tickets weekly in a fast-paced warehouse environment.
- Diagnosed hardware, software, connectivity, and device issues using systematic troubleshooting and problem-solving techniques.
- Supported warehouse technology including scanners, mobile devices, printers, radios, and other operational equipment.
- Applied structured debugging and root-cause analysis skills that translate directly to frontend troubleshooting and application development.

PROJECTS

Summarist | GitHub

- **Next.js, TypeScript, Tailwind CSS, Firebase, Firestore, Stripe, Redux Toolkit:** Designed and developed a responsive audiobook platform featuring book discovery, search, personalized recommendations, audio playback, library management, authentication, and premium subscription flows.

X-Clone | GitHub

- **React, Next.js, Tailwind CSS, Firebase, Redux Toolkit:** Built a responsive social media application with dynamic feeds, authentication, image uploads, reusable components, and interactive user interfaces.
- Implemented Redux Toolkit for shared user authentication/profile state and application-wide modal and comment state using Redux slices, selectors, and dispatched actions.

Skinstric | GitHub

- **React, Tailwind CSS, Framer Motion:** Developed a responsive AI skincare interface with dynamic forms, interactive transitions, API integration, and real-time demographic analysis results.

Ultraverse | GitHub

- **React, JavaScript, Tailwind CSS:** Developed an NFT marketplace interface featuring collection grids, item cards, reusable components, and responsive layouts focused on visual consistency and user experience.

Library Snapshot | GitHub

- **React, TypeScript, Axios, Node.js, Jest, React Testing Library:** Built a dynamic book-browsing application using API-driven content, reusable components, search functionality, carousel interactions, and responsive layouts.

- Added TypeScript typing to React components and implemented automated component tests covering rendering and user interaction with Jest and React Testing Library.

Aricreati Business | GitHub

- **React, JavaScript, Tailwind CSS:** Developed a responsive business website with modern layouts, reusable components, strategic visual presentation, and mobile-focused design.

Treact Clone | GitHub

- **React, HTML, CSS:** Recreated a modern landing page with responsive layouts, animations, reusable components, and detailed frontend implementation.

EDUCATION

Frontend Simplified

Frontend Developer Certificate | Feb 2025 – Present

Focused on modern frontend development including React, JavaScript, TypeScript, Next.js, Tailwind CSS, responsive design, APIs, state management, testing, and application development.

Education

Frontend Simplified Feb 2025 - Present *Frontend Developer Certificate*

Flatiron School Feb 2023 - Oct 2023 *Certificate, Cybersecurity Analytics*
